

Huntingdon District Council are inviting residents across Huntingdonshire to have their say on local services as we look to plan and prioritise services that are important to people given rising costs and financial pressures.

As well as gathering opinion on how well services are run, the survey seeks to understand overall satisfaction levels and whether residents feel they receive value for money. We will use the information to inform our budget setting process as we work to develop proposals for 2023/24 and beyond.

The survey can be found [online](#) and is open until 30 November. More information is available on our [website](#) and we are also sharing posts on [Facebook](#) and [Twitter](#). Please feel free to share with people across your networks.
